DETAILED ACTION

NOTE: All claims are now examined.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 15-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 15, the recitation on lines 6-8 is not understood in that it is not clear. what does it **definitively** mean by “fix the colorant particles and a gaseous medium, within which the particles move, between the first substrate and the second substrate.” Does it mean “place or fasten securely”? If it does, how can the particles move?

Claims 16-19, depending from claim 15, inherit the indefiniteness thereof.

Minor suggestion made on informality noted in claims 16-19

In claims 16-19: line 2, after “substrate”(second occurrence), -- . – (period) should be inserted.

Allowable Subject Matter

Claims 1-14, and 20-26 are allowed.

Claim 15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Art Unit: ***

Claims 16-19 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

An analysis conducted to study the difference between the invention of claims 1-26 vis-à-vis that of the art of record, cited previously, and herewith, has found a distinction therebetween. The characteristic steps in arranging the colorant particles with or without the gaseous medium between two substrates are not taught or suggested in the art of record.
